

**Nonresident OHV Permits**

All vehicles operated off-highway on Public Lands in California are required to be street-licensed or registered as an off-highway vehicle (OHV). If you are visiting California from another state and your vehicle does not have current registration from your home state, you must purchase a California Nonresident OHV Use Permit (sticker) before you go off-roading.

For a Nonresident Permit - Vendor List in PDF form, please go to:
